

Sky Tunnel

**7 YEAR
WARRANTY**

457mm TUBULAR SKYLIGHT

- ✓ **UTILISE RENEWABLE ENERGY**
- ✓ **EXCEPTIONAL QUALITY**
- ✓ **REDUCE POWER COSTS**
- ✓ **IDEAL FOR A HOME OR OFFICE**
- ✓ **EASY INSTALLATION**
- ✓ **SUITABLE FOR TILE & STEEL ROOFS**

The Sky Tunnel 457 is ideal for light commercial or large residential homes. It is an energy saving alternative to bringing light into your home or office. Easily installed, the Sky Tunnel has a 2m flexi-tube that enables it to be installed into almost any ceiling space.

The Sky Tunnel has a 457mm diameter Acrylic dome. The Acrylic is impact modified and UV stabilised with a visible light transmittance of 93%.

The Sky Tunnel can be installed onto almost any type of roof, including tile or profiled steel. The Sky Tunnel comes with everything you need for an easy installation.

Installation of a Sky Tunnel™ with a Flexi-tube™ is very easy as the flexibility allows the installation of the roof parts and ceiling parts to be off centre, so avoiding obstructions in the attic space is simple.

Installing a Sky Tunnel ensures that you are making an environmental choice and utilising renewable energy.

You will not only be saving money, but will be helping to reduce the consumption of our environments precious resources.

The natural light will also improve any internal living or working space, making it a happier and healthier environment to live or work in.

FLEXI-TUBE™ DUCTING SYSTEM

Flexi-tube™ suits most applications up to 2m in length. Installation of Flexi-tube™ is very easy, and the performance is outstanding.

Flexibility allows the installation of the roof parts and ceiling parts to be off centre, so avoiding any obstructions in the attic space is simple.

With up to 86% reflectivity, Flexi-tube™ is a cost effective and reliable component in the Sky Tunnel™ Kit.

Warranty Terms and Conditions Apply.
